Meshnet Project

The Meshnet Project states its mission as follows:

Our objective is to create a versatile, decentralized network built on secure protocols for routing traffic over private mesh or public internetworks independent of a central supporting infrastructure.

RaspberryPi / VirtualBox

Compilation on the RaspberryPi lasted 3 hours 31 minutes 47 seconds.

Start: Fri Dec 7 20:33:15 GMT 2012 **Stop:** Fri Dec 7 23:34:58 GMT 2012
